

## George Perkins Marsh Institute at Clark University, Director

Director, GPMI. The George Perkins Marsh Institute at Clark University, the university's principal venue for interdisciplinary research in nature-society interactions, environmental risks and hazards, geographical information science, and development and health, invites applications for the position of Director of the Institute. At a time of significant new investment in research at Clark, GPMI seeks an experienced researcher who will be an effective leader, responsible for charting out and implementing a new vision for GPMI over the coming years. (Further information about the George Perkins Marsh Institute is at <http://www.clarku.edu/departments/marsh/>). The Director will allocate approximately one half time to directorship activities, and one half to an appropriate mix of research and teaching. Field of research is open provided that there is a good fit with at least one of the broad areas of GPMI research. Interest and ability to collaborate with Clark University's new Mosakowski Institute for Public Enterprise with its focus on use-inspired research is advantageous (see <http://www.clarku.edu/research/mosakowskiinstitute/>). Rank is open; a tenure line may be possible provided that there is a suitable fit with an academic department at Clark. Applications, including a letter of interest, a vita, and a list of three references should be sent to Search Committee, George Perkins Marsh Institute, Clark University, 950 Main St. Worcester, MA 01610. Review of applications will begin November 7, 2007; nominations and applications will be accepted until the position is filled. AA/EEO. Minorities and women are strongly encouraged to apply.
